

Modified Comprehensive Power Loom Cluster Development Scheme (MCPCDS)

Government of India, Ministry of Textiles
(MoT)

§ Scheme Summary/key features:

Comprehensive Power loom Cluster Development Scheme (MCPCDS) was established to develop Erode (Tamil Nadu) and Bhiwandi (Maharashtra) as Power loom Mega Clusters. This helps in creating world-class infrastructure to integrate the production chain and to reach the fulfilment of business needs of the local and Small and Medium Enterprises (SMEs). The scheme intends to enhance the existing brownfield clusters that require a gap filling exercise for each cluster to identify the need-based infrastructure that has to be funded.

Develop clusters that have a concentration of about 5000 decentralized Power looms or more by assistance for infrastructure, common facilities and other need-based innovations, technology upgradation and skill development.

•Eligibility:

Common Facility Centres (CFCs) for pre and post weaving process, Mini-Industrial Parks with Work sheds supported by Core Infrastructure, Innovative Ideas and other need-based interventions

§ Amount or Percentage of Subsidy:

Matching investment in the ratio of Government (60): Private (40). Government of India provides subsidy of 60% of the project cost with maximum ceiling up to Rs 50 crore.
